R4T

Recycle for tomorrow

Welcome to our recycling
project, promoting
sustainability and reducing
waste in our community.

Nadeem
Helena
Leen
Alaa

Motivation

Recycling's impact on the environment

Conserves
resources

Saves energy

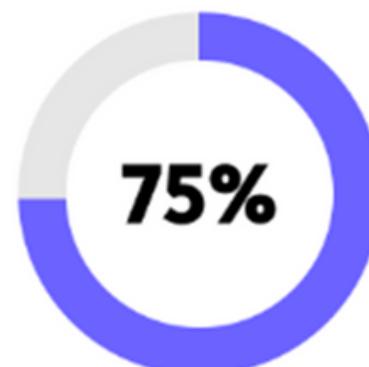

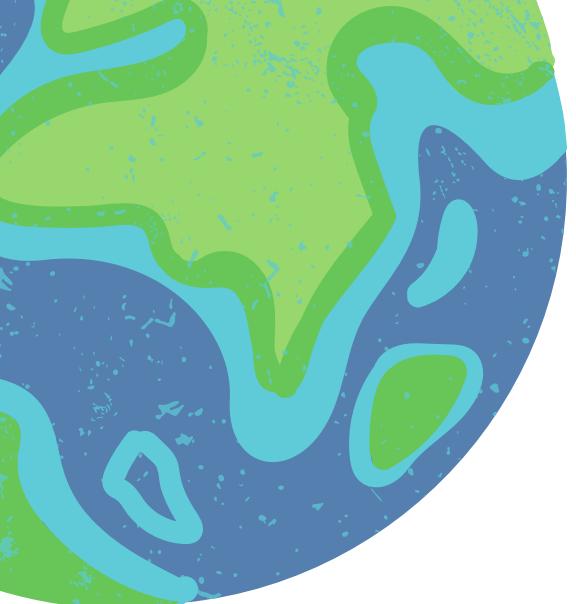

Reduce
waste

Reduce greenhouse
gas emissions

The EPA estimates that nearly 75%
of all waste is recyclable.

Well then, recycling is all
good and dandy,
however

Statistics show that very
few people recycle... what
are the reasons?

66% of
Americans would
NOT recycle

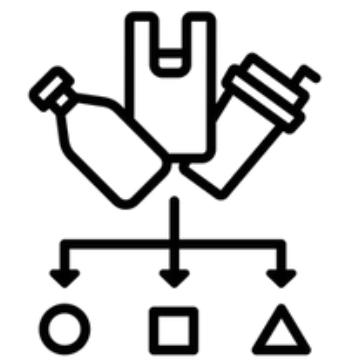

- Inconvenience
- Lack of awareness
- Lack of encouragement

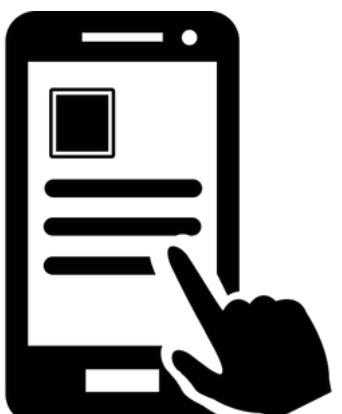

Solution

Smart Garbage System, combining an integrated camera & application

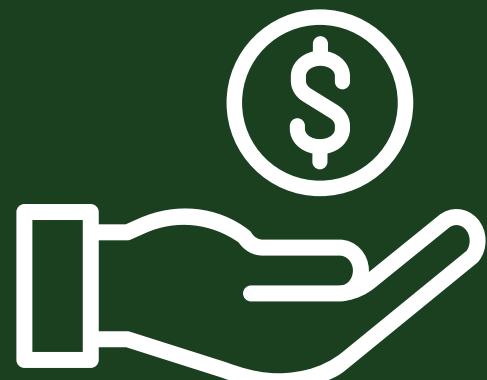

Inconvenience: Automated sorting & accessibility

Lack of awareness: Application

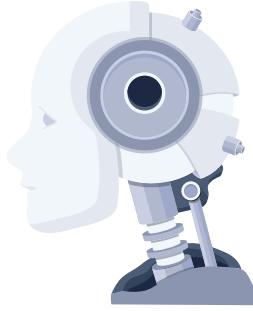

Challenges

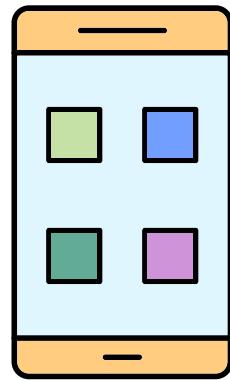

High Cost

Why Recycle for Tomorrow?
